

B1 cont  
at least one solubility enhancing agent,  
wherein said solution does not comprise one or more flavoring oils.

B2  
34. (Amended) A quaternary ammonium compound solution consisting essentially of:  
a quaternary ammonium compound with a concentration of up to about 1% by weight;  
at least one solubility enhancing agent, wherein at least one of said solubility enhancing agents is propylene glycol; and  
water.

B3  
37. (Amended) The solution of claim 34, wherein said solubility enhancing agent further comprises an agent selected from the group consisting of a monohydric alcohol, a dihydric alcohol, a trihydric alcohol, a polyethylene glycol, and a combination thereof.

B4  
47. (New) A concentrated quaternary ammonium compound solution comprising:  
a quaternary ammonium compound with a concentration of about 40% by weight;  
and  
at least one solubility enhancing agent.

48. (New) The solution of claim 47, wherein said agent is present at a concentration ranging from about 10% by weight to about 60% by weight.

49. (New) The solution of claim 47, wherein said agent is present at a concentration ranging from about 55% by weight to about 60% by weight, and wherein said solution further comprises water up to about 5% by weight.

50. (New) The solution of claim 47, wherein said agent is present at a concentration of about 57% by weight and said water is present at about 3% by weight.

51. (New) The solution of claim 47, wherein said agent is propylene glycol.
